

SpeedyRamp

The original and still the most popular of our vehicle ramps, the SpeedyRamp range is now available in many more loading widths and capacities.

Based on the proven and established design of aluminium loading ramps the SpeedyRamp is now available with a loading capacity of up to 600Kg and 4 options of total length when unfolded.

The SpeedyRamp is now also available in 2 anti-slip surfaces, both aluminium chequer plate and a resin surface, both variants featuring the ever popular 2M, 2.25M, 2.5M and 3.00M platform lengths.

Bespoke ramps can also be fabricated using additional rubber or Gripfast coatings where durability and additional safety is paramount.

As well as extending our range of surfaces and coatings, the SpeedyRamp range is now manufactured in 650, 800 and 1000mm platforms for added loading widths, and safer loading.

Industries in which SpeedyRamp can be useful;

- Gardening Equipment
- Video and gaming machines
- Floristry
- Tyre dealers
- Motorbike dealers
- Parcel carriers
- Foodstuff transportation
- Logistics
- Wholesalers
- Distribution
- Cleaning equipment
- Vending machines
- Agriculture

ClipFast

Clipfast

Clipfast can be applied to most* of the SpeedyRamp range, which allows users to easily remove the ramp on and off any vehicle. With minimum tools needed, and no impeding of loading/offloading, Clipfast further advances the users flexibility.
**Excludes some of the Pivot and Loadmaster range.*

Features

- Easy and light
- Easy to be disassembled
- Ergonomic design
- Can be installed on several vehicles of the same size
- Fully fitted with only two clips.
